We'll learn how to talk about many subjects related to everyday life as well as current events and global issues. By the end of the class you'll certainly see improvement in your speaking skill.
授業内容 :	<p>In this class I'll teach you the skills you need to begin, develop and end conversations as native English speakers do. We'll study how to start conversations smoothly and naturally. We'll also study how to guide and develop a conversation properly using a variety of useful transition techniques. Finally we'll learn how to end a conversation in such a way that both speakers feel true communication was achieved.</p> <p>Each lesson we'll combine a conversational topic with a short vocabulary lesson. The students will be able to choose a topic of interest to them from large list of general subjects and then I'll provide them with corresponding nouns, verbs, adverbs and idioms to use in a conversation regarding that topic.</p> <p>This class will give each student the chance to practice their English with a native English speaker. The students will also be able to share and learn from each other in a variety of pair, group, role-play and game activities. We'll also practice how to tell longer narratives and stories. I'm sure we'll have lots of fun talking together!</p> <p>Come, join us this winter! Take your English to the next level!</p>
